

Wondering Where to Keep Your Boat?

Vessel Concierge Service

With the completion of our own private ramp next to the drawbridge in Osterville, E.M. Crosby Boatworks is excited to offer an alternative to limited and pricey dockage. Say the word and your boat will be waiting at the dock for you...

- Clean
- Full of fuel
- Your cooler full of ice

Drop it off when you are done...and walk away...

Make boating worry-free.

What is Vessel Concierge service?

An alternative to limited and pricey dockage, and arguably more convenient and user-friendly. In simplest terms, it is an "ON DEMAND" hauling and launching service.

What boats qualify?

Boats generally 25' and under (exceptions possible)

Who can use the Vessel Concierge service?

Limited memberships available. Please call or email to apply.

How many launchings and haulings does it include?

Four launch-and-haul's per week during the season of May 15th to Columbus Day.

How does it work?

As a Vessel Concierge member, give us the word... ideally the night before...when you'd like to go out on the water, and your boat will be at our dock ready to go. When you are finished for the day, drop your boat back at the dock and we'll haul her right out.

What other conveniences does being a member offer?

Before we launch your vessel, we will make sure it's full of fuel, clean inside and out and that your cooler is full of ice. We will also rinse your boat thoroughly upon hauling.

Will a member's vessel need antifouling paint on the bottom?

No. Imagine...no annual bottom prep/paint costs; no toxic paint in the ocean and no bottom paint "build-up."

What happens in the event of a storm?

Your boat is already safe and secure being out of the water. Never worry about storms again.
